

March 27, 1957

Dear Josh -

after speaking to you on the phone, I recalled that April 9th is the date of the Local S.A.B. Branch meeting, at which I intend to present a discussion of my work on the sex determinant. May I visit you on April 8th (Wednesday) instead?

The local S.A.B. branch has been supported mostly by our department, the Davis group, Western Regional and Med. Center people. We have greatly missed the

UNIVERSITY OF CALIFORNIA—(Letterhead for interdepartmental use)

Stanford group (except for an occasional appearance
by Clifton). Perhaps your group would like to
participate? We meet 2 or 3 times a year.

I'll ask the Secretary to send you an
announcement of the coming meeting.

Hope to see you on the 4th.

Ed
